<p>USE OF MICROBIAL PATHOGENS COMPUTER MODELING IN HACCP PLANS FSIS Notice</p>	<p>FSIS Notice 25-05</p>	<p>6/15/06</p>

EXTENSION OF EFFECTIVE USE OF MICROBIAL PATHOGENS COMPUTER MODELING IN HACCP PLANS

FSIS is extending the expiration date for the following FSIS Notice until June 1, 2007:

[25-05, Use of Microbial Pathogen Computer Modeling in HACCP Plans](#)

This notice is due to expire June 1, 2006. FSIS intends to incorporate this guidance on modeling into the revised compliance guidelines for Ready-to-Eat (RTE) products, which the Agency expects to issue when, and if, the final rule on performance standards for RTE products is published. Until the compliance guidelines are published, the information in the Notice needs to continue to be available to the interested parties to address questions on the use of computer-based modeling programs. Therefore, FSIS is extending the expiration of this notice until June 1, 2007.
